

Rust Preventive C

TECHNICAL DATA SHEET

Rust Preventive C

Description

A solvent deposited rapidly evaporating soft film rust preventive for medium term indoor and covered corrosion prevention.

Benefits

- Excellent corrosion prevention
- Fast evaporating
- Cost effective
- Dry to touch
- Longer term storage
- Drier quicker for packing
- Very economical in-use
- Suitable for handling

Typical Physical Properties

Appearance	Pale fluid
Specific Gravity	~0.83 @ 20°C
Foaming Tendency	Low
Viscosity at 40°C	1.8 cSt
Humidity cabinet protection	60+
Indoor protection	>1 year typical
Usage Concentration	As supplied

Application Method

Rust Preventive C is suitable for ferrous and non-ferrous metals

Rust Preventive C can be applied by dip, swab, spray or brush.

Rust Preventive C can be removed by the following products in the John Neale Ltd range of cleaners: Solvent 702 (non-VOC hand wipe solvent) Solvent RKA (volatile hand wipe / dip solvent) and Cleaner CRP (alkaline degreaser).
